ABOUT AB-INTELLIGENCE

With the massive disruption in business occasioned by technology, a silent revolution has emerged among various corporations redefining professional services and business operations. In response to this reality, Aina Blankson Intelligence has emerged as the new face of law practice and professional service delivery in the new world order.

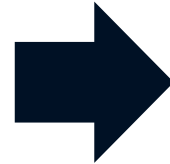

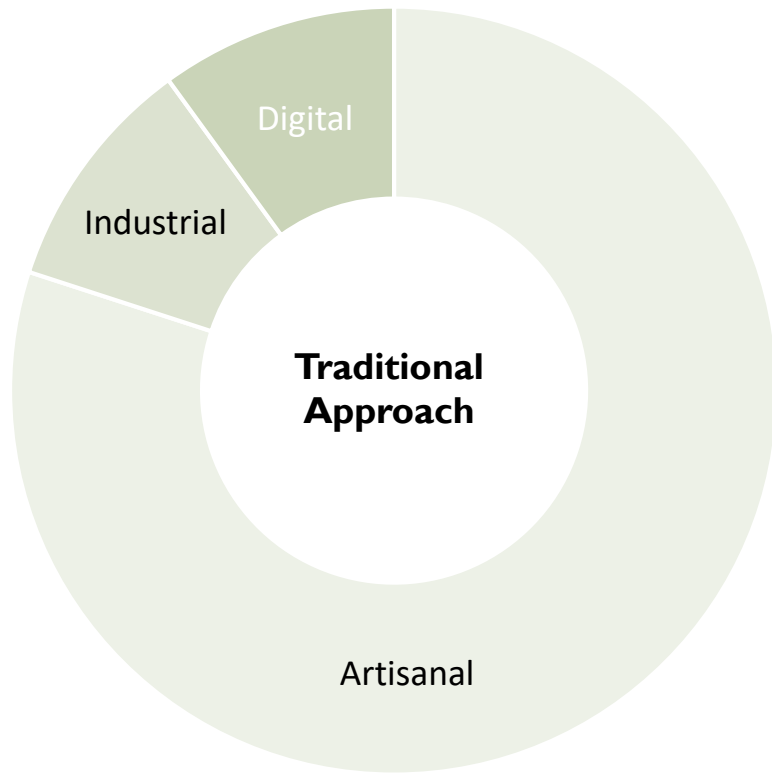

Leveraging on innovative ideas, AB Intelligence develops and deploys technology driven solutions geared towards improving efficiency in the workplace and delivering world class service to clients.

HORIZONS OF TECHNOLOGY DISRUPTIONS

OUR APPROACH

⇒ **Future Target**

**Operating Model
(TOM):**

- Align Technology resourcing models with nature of work
- Multiple execution channels
- Technology leads process industrialization

WHAT WE DO

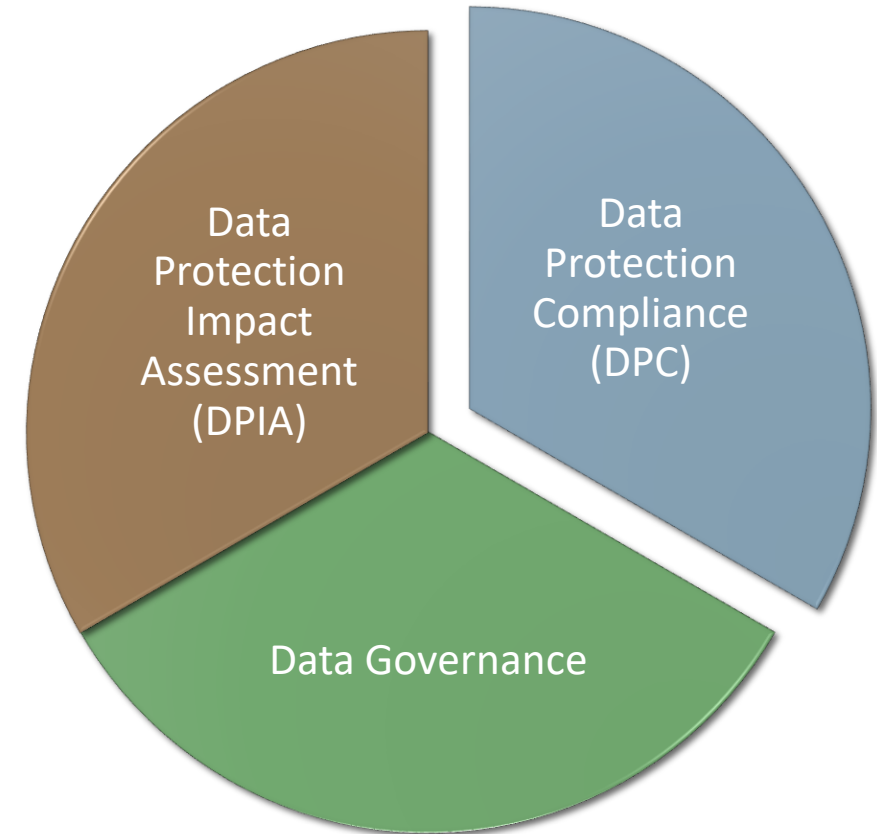

- Data Protection Services
- Virtual Corporate Services
- Content Management Services
- Judicial System Services
- Technology Development and incubation

DATA PROTECTION SERVICES

Data is the new gold..

With our understanding of Data Protection Regimes and in line with the NDPR and GDPR, AB-I facilitates the prevention data breaches and safeguarding of data through services such as Data Protection Impact Assessment (DPIA), Data Protection Compliance (DPC), etc.

VIRTUAL CORPORATE SERVICES

In championing the cause of technology disruption and remaining leaders in the new world order, AB-I has virtualized all corporate service.

CONTENT MANAGEMENT SERVICES

ainablanksonINTELLIGENCE

AB-I uses a set of processes and technologies that supports the collection, managing, and publishing of information in any form or medium. The aggregation of these processes and technologies is the AB-I Content Management Services through Our CMS which aims to simplify the management of sensitive information through data storage, security, version control, process routing, and retention.

JUDICIAL SYSTEM SERVICES

AB-I is on a mission to virtualize judicial services starting in Africa. This mission will reduce delay, improve economy, increase efficiency and effectiveness and ultimately promote confidence in the justice system through the use of new technologies.

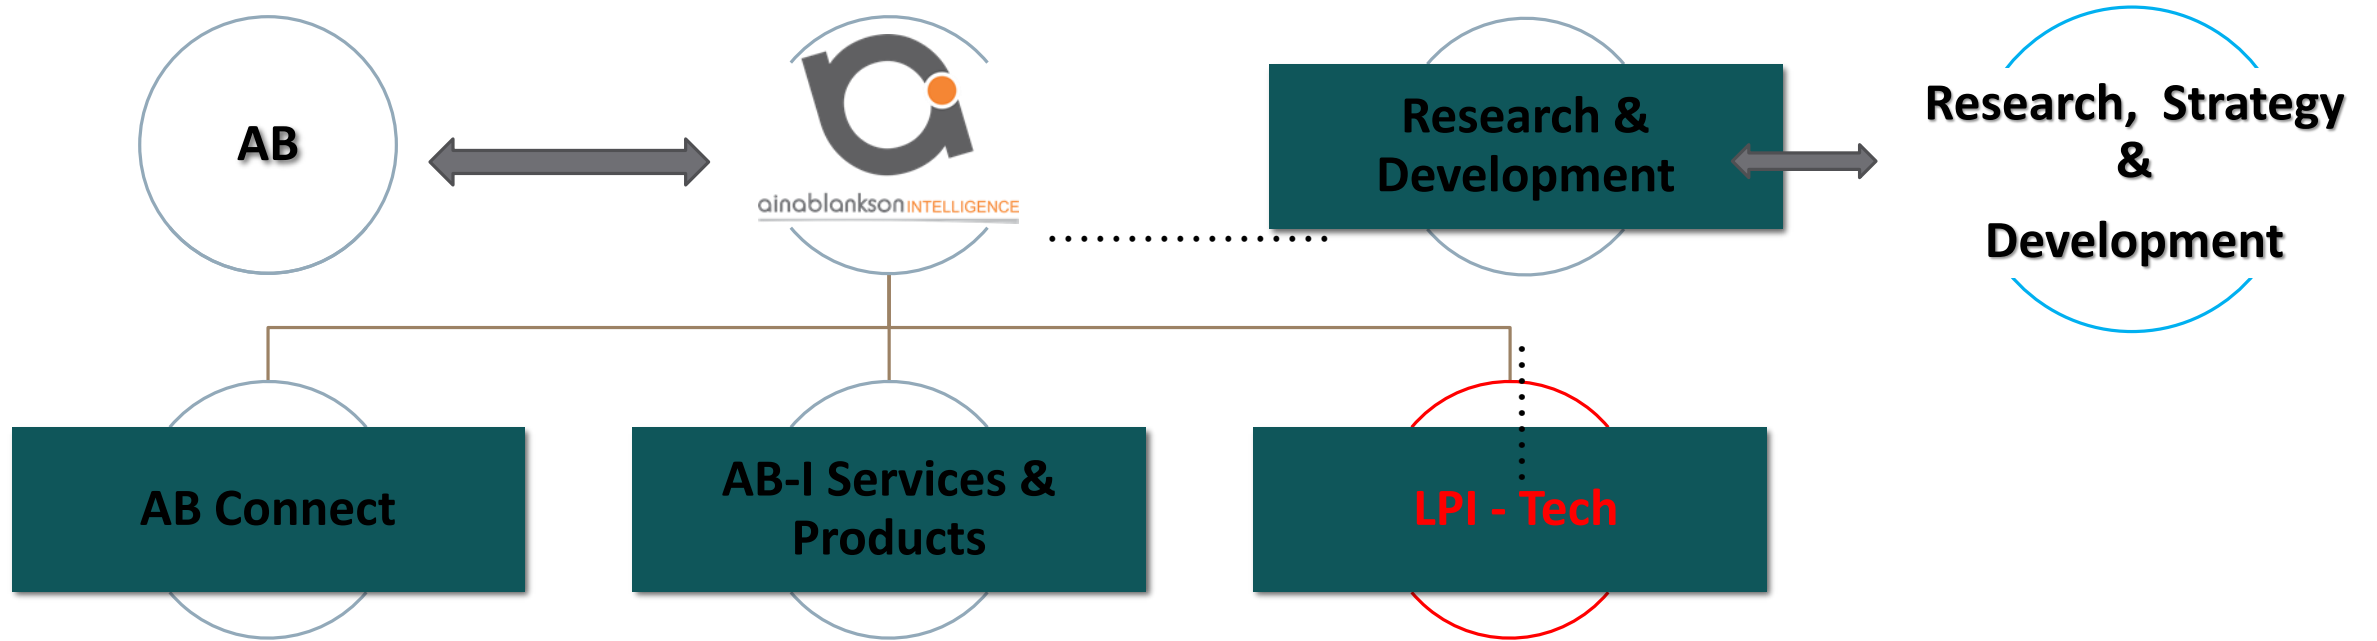

Technology Incubation and Development (TID)

TID has a multipronged approach in diverse areas of Electronics, ICT and Management. It aims to assist institutions of higher learning to strengthen their Technology Department and enable young entrepreneurs to initiate technology start-up companies for commercial exploitation of technologies developed by them.

AB-I provides a gamut of services to new enterprises and facilitate linkages congenial for their survival and growth. We achieve this by leveraging on our existing relationship with top management, financial and legal institutions including the Singapore Academy of Law.

HOW WE OPERATE

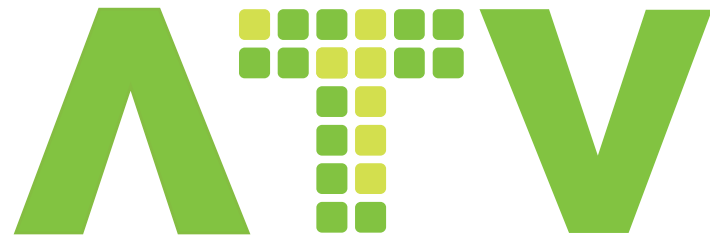

ainablonksonINTELLIGENCE

To further promote innovation and accelerate technological advancement in the Afro-Asian community, AB-Intelligence has identified reputable institutions championing tech-disruption within their sphere of expertise. One of such is the Singapore Academy of Law and in collaboration with AB-Intelligence, we present
