AB-TLIP: INTRODUCTION

As decades of practice experience and exposure to different shades of clientele needs have greatly enhanced our appreciation of *"thinking"* as the cornerstone of success, the *"Thinkers and Leaders Internship Program"* ("TLIP" or the "Internship") provides challenging opportunities for talented undergraduate and graduate students to gain practical insights into the operational environment of Aina Blankson. The Program is designed to provide an enriching experience characterized by measurable on-the-job training and an avenue to develop leadership traits in young individuals and assist them in realizing their potentials. Our Internship Program provides opportunities to students studying both in Nigeria and overseas willing to gain practical work experience in an international law firm in Nigeria. We aim to expose our engaged interns to a broad range of transactions in different practice areas through rotational learning and you will be part of the team working on live transactions, receive the same training as the lawyers and other specialists.

Our Two-Tier Internship Structure:

- a) *Pre-Graduate Interns:*** With limited internship positions and fierce competition for available slots, selection is based on a number of criteria, including excellent oral and written communication skills, strong academic ability, commercial awareness and legal knowledge amongst others. This is specifically open to under-graduates and Law School students with no less than a second class upper and whose academic records meet stipulated criteria. Our Pre-Graduate Internship is for a minimum of 30days and maximum of 90days.
- b) *Graduate Interns:*** With a stipulated period of six months to twelve months, students who graduate with a First class or Second-Class Upper degree from a reputable institution are eligible for this program. However, academic excellence is only the starting point as we admit only candidates with demonstrated thinking ability, promising minds, good work attitude and the ability and willingness to take on a high level of responsibility.

*our primary focus is on "Insight & Thinking"
as not only does the ability to think matter
in leadership, it does matter the most for
without which, business strategy and
growth remains utopian.*
